## Ecological Society of America

[www.esa.org/education\\_diversity/explore.php](http://www.esa.org/education_diversity/explore.php)

**Careers in Ecology (high school version).** Presents an overview of the career, work settings, and suggested high school activities.

**Careers in Ecology (undergraduate version).** Includes information on careers, suggested courses, and ways students can gain experience (e.g., work as a teaching assistant in a biology or ecology course, get an internship, or volunteer) in the field during college.

**Focus on Ecologists.** Provides profiles of nearly 100 ecologists, who discuss the educational and career challenges they faced as they worked to enter the field.

## Educational Foundation for Women in Accounting

[www.efwa.org/scholarships.htm](http://www.efwa.org/scholarships.htm)

**Scholarships.** Provides information on undergraduate and post-graduate scholarships for female accounting students.

## Educational Theatre Association (ETA)

[www.edta.org/thespian\\_resources](http://www.edta.org/thespian_resources)

Click on College Prep for the following resources:

**Choosing a Theatre Training Program/Choices.** Comprehensive information for high school students interested in attending an undergraduate theatre program. Contents include a discussion of the merits of pursuing a bachelor of arts versus a bachelor of fine Arts and questions to ask yourself (e.g., What do I want to get out of college theatre training? and What size program do I prefer?) and school representatives (e.g., What is your philosophy of training in theatre? and Where are your recent graduates now, and what are they doing?). The section also includes specialized questions for acting students, theatre education majors, and playwriting students.

**The Portfolio.** Information for students who are interested in working behind the scenes in design and production. Includes advice on preparing a resume and portfolio for a college representative and choosing a tech theatre program.

**The Audition.** Advice on preparing for an audition at the college and professional level.

**College Links.** Features links to nearly 250 U.S. and international college, university, and conservatory theatre programs that are listed in the *Dramatics College Theatre Directory*. (A print edition of this resource is also available for a small fee.)

**Thespian Scholarships.** Information for high school seniors interested in applying for ETA scholarships.

## Engineering Your Future

[www.futuresinengineering.com](http://www.futuresinengineering.com)

**Career Track.** Provides a list of recommended high school classes and activities for engineering-bound students.

## Engineer Your Life: Dream Big. Love What You Do

[www.engineeryourlife.org](http://www.engineeryourlife.org)

Sponsored by the National Science Foundation and Northrop Grumman Foundation, this website that introduces high school girls to engineering offers the following useful resources in its Making It Happen section:

**Being an Engineering Student.** Presents profiles of three female engineering students and offers an overview of a typical engineering program.

**Preparing for College.** Lists recommended high school courses for aspiring engineers.

**Taking a Test Drive.** Details exploration activities such as high school engineering clubs, internships, and information interviews.

### Best Undergraduate Engineering Programs

*U.S. News & World Report* asked engineering deans and faculty to name the best programs. They ranked the following schools with engineering programs at the bachelor's or master's level as the best: Harvey Mudd College (CA), Rose-Hulman Institute of Technology (IN), Cooper Union (NY), California-Polytechnic-San Luis Obispo, and the United States Military Academy (NY).

**Looking at Programs.** Offers advice on researching and contacting college engineering programs.

**Scholarships and Financial Aid.** Provides tips on finding financial aid.

## EngineerGirl

[www.engineergirl.org](http://www.engineergirl.org)

**Becoming an Engineer.** Provides information on college planning, scholarships, and mentoring.

**Careers.** Offers information on more than 60 engineering careers (including answers to frequently asked questions and details on work settings and earnings) and educational requirements.

## Entomological Society of America

[www.entsoc.org/resources/education/index.htm](http://www.entsoc.org/resources/education/index.htm)

**Interviews with Entomologists.** Entomologists discuss the challenges and rewards of a career in entomology (includes advice on educational preparation).

**College and University Entomology Programs.** Lists U.S. and Canadian colleges that offer courses in entomology or entomology-related degrees and courses (including online options).

**Discover Entomology Brochure.** Provides information on the career, academic preparation, and colleges and universities that offer entomology-related programs.

**Scholarships from ESA and the Entomological Foundation.** Provides information on financial aid for undergraduate and graduate students.

**> Did You Know?**  
Two-thirds of teens surveyed in 2007 by Junior Achievement reported that they would like to start their own business someday.

## EntrepreneurU

[www.entrepreneurU.org](http://www.entrepreneurU.org)

**Entrepreneur U Database.** Database of community college, college, and university entrepreneurship programs in the United States.

**Scholarships/Awards/Grants.** Provides information on a variety of financial aid resources for entrepreneurship students.
